Guiding the development of an integrated network of home, community-based, and institutional long term care services for older adults and adults with disabilities

- The LTCCC evaluates all issues related to long term care (LTC) and supportive services, including how different service delivery systems interact. It makes recommendations about how to improve service coordination and system interaction.
- The LTCCC, designated as a local/regional coalition, is part of The SCAN Foundation’s Community of Constituents initiative, building a statewide movement to transform the system of care so that all Californians can age with dignity, choice and independence.
