Discussion Questions

1. What do your clients and their families need to get or stay in housing?
2. Other than housing services, what are the services that are most important for your clients and their families?
3. How would your clients find out about these services?
4. What gets in the way of being able to access or use existing programs and services?
5. Do you have any suggestions for how to make our programs and services better to meet the needs of older adults and people with disabilities?

Discussion Questions

6. What are the services that your clients need but have been unable to find?
7. What, if any, suggestions do you have for making transportation more accessible to more diverse communities in San Francisco?
8. If your clients wanted to learn about affordable rental or ownership opportunities, what method of being notified would they prefer?
9. What are the kinds of things that help your clients move on from temporary housing or shelter into more permanent housing? What gets in the way of moving on?

Discussion Questions

10. What has helped your clients get or keep a job?
11. What, if any, suggestions do you have for the City to improve access to good jobs?
12. What would your clients and their families need in order to be financially stable and/or to be able to build wealth?
13. Is there something that we should have asked, something that is important to you or your clients?

Thank you!
